TERMS OF ADMISSION.

Applicants for admission to the Freshman Class must present satisfactory certificates, or sustain examinations in the studies prescribed in the Preparatory and Intermediate departments.

Candidates for advanced classes seeking regular graduation must pass examinations in the studies prescribed in the classes preceding those which they purpose to enter.*

Students will also be admitted without examination to the Freshman or a higher class when they bring certificates of proficiency in the studies prescribed in the regular course, or their equivalent from accredited teachers known to the Faculty, and from persons appointed by the President to conduct such examination in places remote from the College, and from other institutions approved by the Faculty.

In all cases certificates must be of recent date, and they must state definitely the text-books used and the work accomplished.

THE SCIENTIFIC COURSE

Candidates for admission to the Freshman Class in the Scientific Course will be examined in all the studies required for admission to the regular Freshman Class.

ECLECTIC COURSE FOR TEACHERS.

Students who have been engaged in teaching, and who desire a better preparation for their work, will be admitted to the privileges of the regular College Classes without the usual examination upon testimonials satisfactory to the President. Certificates of the work accomplished will be given students in the Eclectic Course.

PREPARATORY SCHOOL.

The studies in this school will ordinarily occupy three years. They are intended to form a consecutive course in preparation for admission to the regular College course. And it is of the greatest importance that pupils should be thoroughly trained in the rudiments before entering upon the advanced studies of a collegiate course.

This school is under the immediate direction of the college.

*These requirements will not be allowed to affect the grade of students who entered before the adoption of the present advanced course.

COLLEGIATE DEPARTMENT.

By an examination of the course of study in this department it will be seen that it embraces a thorough University standard.

It is progressive in its arrangement and adapted to the requisites of the Prescribed and Elective Systems.

It will also be observed that it is far more comprehensive than the usual course of instruction in female Colleges.

Candidates for the degree of A. B. are required to continue the study of Latin and a second language—Greek, French, or German throughout the prescribed Course.

Students not candidates for degrees may take an Elementary Course in Greek or the Modern Languages in the Junior year.

BIBLICAL STUDIES.

This department embraces the Evidence of Christianity, external and internal, and a careful and progressive investigation of the facts of the Old and New Testament History.

The aim of this Course is to arm our students against the skeptical tendencies of the age and to develop a more profound interest in the great truths contained in the Word of God. Every student is required to take this course.

MENTAL AND MORAL PHILOSOPHY.

The studies in this department include Logic, Mental Philosophy, Ethics, Political Economy and Science of Government. Instruction will be given by text-books of the most approved character, supplemented by lectures.

MATHEMATICS.

The course in Mathematics embraces the following branches: Algebra, Plane and Solid Geometry, Conic Sections Plane and Spherical Trigonometry with applications to Surveying and Navigation, Analytical Geometry and Differential and Integral Calculus.

ANCIENT LANGUAGES.

LATIN.

It will be seen by referring to the Curriculum that Latin is taught in two courses. The Prescribed Course extends through the Freshman and Sophomore years and the first half of the Junior year. The Elective Course embraces the second term of the Junior and the Senior year. The text-books used are the latest and best. Instructions will also be given in Latin Composition.

GREEK.

The course in Greek comprises a wide range of authors, and is designed to afford an opportunity for a high standard of scholarship in the languages. Pupils who do not take the regular course may take a course in Elementary Greek in the Junior year. Attention will be given to Greek Composition.

FRENCH AND GERMAN.

By referring to the tabular statement it will be seen that the courses in these departments are adapted to impart a thorough knowledge of the languages. It is the aim to produce accurate scholars who can read with facility, and speak and write correctly and fluently in these languages.

HISTORY.

This department embraces Grecian, Roman, Mediaeval, Modern and Constitutional History, and History of Art. The study is continued through the four years. The latest and best charts and text books will be used.

RHETORIC AND ENGLISH LITERATURE.

The thorough courses in Rhetoric and English Literature are designed to develop in the student a pure taste and a high degree of literary culture.

The importance of such an extended knowledge of the English language in its history, its laws, its power and its beauty can not be over-estimated in the education of young ladies. During the Senior year two hours a week

will be given to the study of Shakespeare. Instruction in Anglo-Saxon will also be given during the Senior year.

NATURAL SCIENCES.

The studies in this department are Physical Geography, Physiology and Hygiene, Botany, Physics, Chemistry, Geology, Mineralogy, Zoology and Astronomy.

Instruction will begin by text-books, supplemented by lectures, etc.

 In the Senior year instruction will be given in the History of Art and the Principles of Criticism.

SCHOOL OF ELOCUTION.

REV. T. D. LATIMER, DIRECTOR.

The full course of instruction in this department will occupy two years. It embraces studies in the Science and Art of Elocution and a special course in Rhetoric and English Literature. The entire compass of expression is comprehended in this course. In addition to a thorough critical study of the styles of composition with a view to artistic forms of delivery the methods of instruction will be such as will enable the pupil to develop and apply her best natural powers of expression.

The aim throughout the course will be to give fluency and vivacity to the conversational powers and to cultivate gracefulness and elegance of manner.

Cultured speech is the shrine before which the world is ever ready to bow. It is the maiden's magic wand by which she wields dominion over head and

heart and compels admiration.

General instruction in Elocution will be given throughout the regular course for which no extra charges will be made, but this School of Elocution is not included in the College Course. Pupils may take a shorter course in Elocution which they can complete in one year.

Examinations in this department will be held at the close of each Term and diplomas will be given those who complete the prescribed course satisfactorily.

SCHOOL OF PHONOGRAPHY, TYPE-WRITING AND PENMANSHIP.

REV. T. D. LATIMER, DIRECTOR.

MRS. T. D. LATIMER, ASSISTANT.

The studies in this department embraces Phonography, Type-Writing and Penmanship. The Pitman-Howard System of Phonography will be taught.

The Pitman System has been a standard text-book in England and America for fifty years, and the Pitman-Howard System (Revised Ed), which is an extension of the original system "meets, in the fullest possible measure, the demands of the professional reporter."

Pupils will be instructed in the principles of Micheal's Rapid Writing System of Penmanship.

The course extends over one year.

Certificates will be given those who pass the examinations satisfactorily.

CHICKASAW FEMALE COLLEGE.

CHICKASAW FEMALE COLLEGE was founded nearly forty years ago for the purpose of providing superior facilities for a thorough, liberal, useful christian education. It is under the care and control of the Presbytery of Chickasaw.

It is situated at Pontotoc, Miss., a town long noted for the intelligence and refinement of its citizens. Pontotoc is located about eighty miles southeast of Memphis, on the Gulf and Chicago Ry., which connects with the Kansas City, Memphis and Birmingham Ry., at New Albany, Miss., and with the Memphis and Charleston Ry., at Middleton, Tenn., thus affording direct connections with the Mobile and Ohio Ry., at Tupelo, Miss., and with the Illinois Central at Grand Junction, Tenn., and Holly Springs, Miss.

Telegraphic communication with all parts of the country, via New Albany.

Pontotoc is situated on the summit of one of the highest hills in the State and, it is said, one of the highest points along the line of M. & O. Ry., between Cairo and Mobile.

Its elevation, its abundance of pure free-stone water, its excellent natural drainage, free it from malarial influences and render it remarkably healthy.

Persons residing in the South and Southwest who have daughters to educate need not expose them to the rigors of Northern winters, oftentimes perilous to the health of Southern girls, in order to secure a high standard of scholarship, for here, in our own sunny land, they will find a well equipped institution with a course of study that is the peer of the very best Female Colleges in America.

The site of the Institution is very eligible, commanding a delightful view from the Observatory of the picturesque scenery of the surrounding country.

The grounds are level and beautiful and shaded by noble forest trees, furnishing ample shade for out-door exercise.

The college building is a very substantial brick edifice, three-stories high, with a metallic roof and an Observatory. It contains thirty-two rooms, including the Chapel, with spacious corridors on each floor running the full length of the building, and wide verandas in front. The walls being very thick render the rooms delightfully cool in summer and warm in winter.

LIBRARY, APPARATUS, ETC.

The Library contains about two thousand volumes to which the students have access.

The Institution is also furnished with Wall-Maps, Globes, Cabinet, Philosophical and Chemical apparatus, sufficient for all practical purposes.

LITERARY SOCIETY.

The Literary society will meet weekly. The exercises of this Society will afford additional opportunities for mental discipline and social culture. They will consist in Reading, Artistic Recitation, Composition, Debate, etc.

GOVERNMENT.

The government of the College will be mild and parental in its character, yet firm and decided. The regulations will be such as will tend to the development of the excellencies of pure, noble womanhood. No young lady, whose example or influence is injurious to others or detrimental to good order will be permitted to remain in the Institution.

RELIGIOUS EXERCISES.

The Faculty and Students will assemble daily in the College Chapel for devotional exercises and all pupils are required to be present.

Boarding pupils will have Bible Class exercises in the College Chapel on the Sabbath, taught by teachers connected with the College and they will be required to attend church with the family of the President unless parents specially request regular attendance at some other church. They will then be allowed to do so in company with a teacher.

The College is distinctly christian, yet there is no intention to bias the minds of those entrusted to its care by promulgating sectarian prejudices, and it welcomes all to its advantages.

UNIFORM.

To prevent extravagance and enviable distinctions, every student will be required to dress in uniform on all public occasions.

For fall and winter, black woolen dress trimmed with same goods to be made with basque; plain black wrap; plain white linen collars and cuffs. For the purpose of uniformity, hats will be furnished here at reasonable rates.

The style of dress for spring and summer will be announced in due time. Plain white lawn dresses will be worn at Commencement and at other entertainments given by the College. For every day wear in the school room any simple dress may be used. Pupils are required to provide themselves with a gossamer, an umbrella, a pair of overshoes and a calisthenic dress. Pupils must wear colored skirts in winter.

CORRESPONDENCE.

All communications respecting pupils, their admission or dismissal, their studies, etc., should be addressed directly to the President. All Post Office Money Orders, Drafts, etc., should be made payable to the President.

Letters pertaining to the health of students should be addressed to the Lady Principal. All general correspondence and telegrams for students should be sent to the care of the Lady Principal. Pupils will not be allowed to correspond with young gentlemen without the written consent of their parents or guardians.

EXAMINATIONS.

At the close of each term students will be required to stand written and oral examinations. Advancement in the classes will depend upon the result of these examinations in connection with the average standing in the daily recitations.

DEGREES.

BACHELOR OF ARTS.

The Degree of Bachelor of Arts will be conferred upon pupils who complete satisfactorily the regular prescribed course.

BACHELOR OF SCIENCE.

The Degree of Bachelor of Science will be conferred upon students who complete the course in Mathematics, English Literature, Rhetoric, Bible Course Natural Sciences, History and one Language.

BACHELOR OF ELOCUTION.

The Degree of Bachelor of Elocution will be conferred upon pupils who complete satisfactorily the course prescribed in the School of Elocution.

BACHELOR OF MUSIC.

The Degree of Bachelor of Music will be conferred upon students who pass the required examinations on the four years course prescribed in the School of Music.

CERTIFICATES OF PROFICIENCY will also be given to pupils attaining the requisite standing in special branches.

SESSIONS AND VACATIONS.

The college year includes thirty-eight weeks, divided into two equal terms. The first term begins Thursday, September 11, 1890. The second term begins Monday, January 26, 1891, and closes June 3, 1891.

Short Recesses will be given at Christmas at other times during the year. Students will find it greatly to their advantage to be present at the beginning of the term, since an absence of a few days is liable to embarrass the whole course.

BOARDING DEPARTMENT.

This department will be under the immediate supervision of the Lady Principal. The table will be furnished with a good variety of wholesome

food and everything will be done to promote the health and comfort of the pupils.

All students from a distance will be required to board in the College unless by special permission from the President. Students will be required to take care of their rooms and keep them neatly. Each boarding student must furnish one pair of sheets, one pair of blankets, towels, toilet articles, one teaspoon for use in her room and a napkin ring. All articles must be plainly marked with the full name.

EXPENSES.

By referring to the Course of Study and comparing it with the curriculums of other institutions it will be seen that it is as thorough as any first-class Female College in America. Yet our prices, if will be observed, are remarkably low considering the superior advantages offered.

No deduction will be made for tardiness in entering upon the duties of the term unless it exceeds three weeks. After three weeks students entering the College will be charged pro rata for the remainder of the term.

All persons admitted to the Institution are considered as pledged to remain until the end of the collegiate year. And no abatement will be made for brief absences or withdrawal before the end of the term unless made necessary by protracted sickness of which the attendant physician must be the judge.

Daughters of non-resident clergymen of all denominations ACTUALLY ENGAGED IN MINISTRIAL WORK will receive tuition in the regular College Course, free of charge.

Text-Books, Sheet-Music, Stationary, Postage, Art Material, etc., may be purchased at the College at current prices for cash.

A deposit should be made to meet the expenses of books, etc.

REGULATIONS.

Pupils will not be allowed to receive visitors on the Sabbath nor on other days except in special cases and at the times set apart for receptions.

Visits from young gentlemen will not be permitted at any time.

Boarding pupils will not be allowed to appear on the streets unless accompanied by a teacher or by special permission. Nor will they be permitted to spend the night out of the college.

Pupils are not allowed to make accounts at the stores.

Fresh ripe fruits may be sent pupils but patrons and friends are requested not to send boxes of rich food or sweet-meats, except at Christmas.

Daily exercise in open air is required of all pupils except in very inclement weather.

THE

COTTON BELT ROUTE.

ST. LOUIS, ARKANSAS & TEXAS RAILWAY.

CARRIES MORE PUPILS TO AND FROM ARKANSAS AND TEXAS
THAN ALL OTHER LINES TO THOSE STATES COMBINED.

Why? Because this is the only line which has furnished, as promised, elegant chair cars direct from the school to the scholar's home, and from the home back to school without change en route. These cars are fitted up for this class of travel exclusively with retiring and toilet rooms, accompanied by an attentive porter and in charge of an Agent of the Company, who sees that the car is reserved for the use of pupils only.

We have handled the First-Class Schools of Tennessee, Kentucky, North Carolina and other States for a series of years, and in no instance has any school, commencing with us, patronized, subsequently, any other line.

This is the Only Line From Memphis
Running Two Daily Trains
Through to Texas Without Change of Cars,
And Without Omnibus Transfer in Memphis From The Eastern Lines.
